OBJECTIVE

Software engineer with a B.S. in Computer Science and experience in software development and enterprise solutions. Seeking a role to leverage my technical skills in development and contribute to impactful projects.

SKILLS AND SOFTWARE

- | | | | |
|---------------|--------------------|------------|-------------------|
| • Java | • C++ | • C# | • JavaFX |
| • HTML | • CSS | • ABAP | • SAP |
| • Spring Boot | • .Net | • AWS | • Docker |
| • Postman | • REST API | • GitHub | • Unit Testing |
| • UI/UX | • Machine Learning | • Cherwell | • Problem Solving |

PROJECTS

AFK AUTO

Car Dealership Web APP | Role: Back-End Developer

- Developed backend system using Spring Boot and designed relational database.
- Integrated subsystems and configured routing and dependencies.
- Utilized JSON for testing and maintained system reliability.
- Collaborated on deployment with team members.

Tech: *Java, Spring Boot, UML, JSON, AWS, JUnit, REST APIs, Postman, GitHub*

Pokédex APP

Pokémon Database Windows APP | Role: Front-End Developer

- Developed home page UI using JavaFX and CSS.
- Applied UI/UX principles for a consistent, user-friendly design.
- Collaborated with teammates to create Pokémon pages.
- Utilized Adobe Photoshop, GitHub, and GitBash for teamwork and task management.

Tech: *JavaFX, VSCode, CSS, GitHub, Adobe Photoshop*

EDUCATION

California State Polytechnic University | Pomona, California

Bachelor of Science in Computer Science

Dec 2023

Pasadena City College | Pasadena, California

Associate of Arts in Engineering and Technology

Dec 2022

CERTIFICATIONS

SAP | Managing Clean Core for SAP S/4HANA Cloud

Aug 2024

SAP | Learning the Basics of ABAP Programming on SAP BTP

July 2024

PROFESSIONAL EXPERIENCE

Technical Support Services

Registrar Recorder County Clerk of Los Angeles

Dec 2023 - Current

- Administer Cherwell ticketing, handling password resets and tailored data support for election operations.
- Configure and optimize Symbee AWS call queues and role assignments to improve call routing efficiency.
- Train and support users on election technologies, including ePollbooks, ballot-marking devices, and BAM Printers.
- Troubleshoot connectivity issues and perform support across Windows 11, Android, iOS, and network devices.
- Analyze data to generate reports and insights for improved troubleshooting and support outcomes.

Freelance Web Developer

May 2023 - Current

- Develop backend services with Spring Boot, .NET, and optimize MySQL database schemas for performance.
- Building RESTful APIs to enable seamless integration between frontend and backend systems.
- Utilize modeling technologies to create robust, scalable, maintainable backend architectures.
- Using version control systems (e.g., Git) to manage source code and ensure collaborative development.
